more complete coverage
more peace-of-mind

Our Sientra Platinum20™ Product Replacement and Limited Warranty Program provides the most comprehensive protection, longest length of coverage, most financial assistance and least amount of warranty restrictions in the industry.

All at no cost to you.

Lifetime: FREE implant replacement if your implant ruptures

20 Year: Up to \$5,000 for uncovered fees and costs due to implant rupture

20 Year: FREE implant replacement for complications of capsular contracture (Baker Grade III/IV), late forming seroma and double capsule

2 Year: Up to \$2,000 for uncovered fees and costs due to capsular contracture (Baker Grade III/IV), late forming seroma and double capsule

- Any style and size Sientra OPUS High-Strength Cohesive gel implant for your replacement
- FREE contralateral (opposite side) implant
- Covers primary & revision augmentation and primary & revision reconstruction

Any surgery carries inherent risks, and we take that very seriously. That's why we entrust your safety and satisfaction to only the most qualified surgeons in our industry. Replacement surgery must be performed by a board-certified or board-eligible plastic surgeon.

We offer the most complete warranty program in the industry, because we trust in the performance of our OPUS breast implants. Our extensive warranty coverage is designed to give you the same level of confidence.

Our robust, 10-year FDA-clinical study - the largest breast implant study of its kind - revealed unrivaled safety and clinical results.¹

Lowest rupture rates*

Low capsular contracture rates

Low late seroma rates

ZERO double capsules

Important Safety Information

Sientra's OPUS Silicone Gel Breast Implants are indicated for breast augmentation in women at least 22 years old and for breast reconstruction. Breast augmentation includes primary breast augmentation to increase the breast size, as well as revision surgery to correct or improve the result of primary breast augmentation surgery. Breast reconstruction includes primary reconstruction to replace breast tissue that has been removed due to cancer or trauma or that has failed to develop properly due to a severe breast abnormality. Breast reconstruction also includes revision surgery to correct or improve the results of a primary breast reconstruction surgery.

Breast implant surgery is contraindicated in women with active infection anywhere in their bodies, with existing cancer or pre-cancer of their breast who have not received adequate treatment for those conditions and, who are pregnant or nursing.

Key complications include capsular contracture, implant removal, rupture and reoperation. For more detailed information about the risks and benefits of Sientra OPUS breast implants, please visit sientra.com/resources or call Sientra at 888.708.0808. Sientra OPUS breast implants with High-Strength Cohesive silicone gel are only available through board-certified or board-eligible plastic surgeons.

You are automatically enrolled in the Sientra Platinum20™ Product Replacement and Limited Warranty Program when you choose OPUS breast implants on or after May 1, 2018.
